

# MID-WEST HONORS HALE-MILLS CONSTRUCTION AS BUILDER OF THE YEAR

---

With cumulative sales of \$13 million and over 20 years of loyalty, choosing Hale-Mills Construction LTD as Mid-West's 2009 Builder of the Year was a no-brainer. Hale-Mills has always been a valued construction partner, and Mid-West feels honored to be considered a part of their team.

Hale-Mills is an innovator in the metal building design-build market, as evidenced by the projects they put their name on. In 2009, Hale-Mills completed several outstanding projects, one of which is the Montgomery County Law Enforcement Center. Hale-Mills has cornered the prison market in their area through the use of very strong relationships with those involved. They also typically put together a dedicated team that they work with time and time again. This is helpful in setting expectations and getting the most out of their workers, all the while ensuring that their projects come out top-notch each and every time. Having the same staff on each job means things are consistently done right.

Working hand-in-hand with Mid-West on projects from the ground level is only one piece of the puzzle. And Hale-Mills has certainly found a formula that works. Congratulations to Mid-West's 2009 Builder of the Year, Hale-Mills Construction LTD!
